YJFC Armory App - Equipment Checkout

Susanna Dong
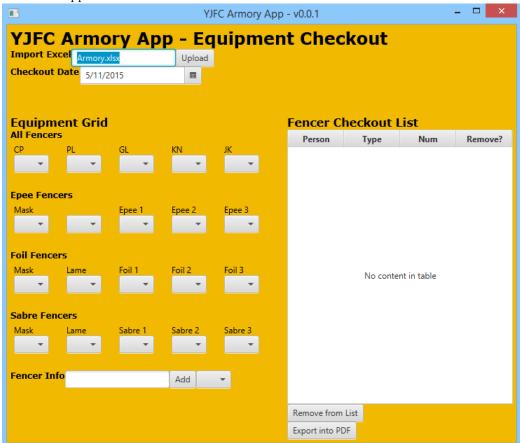

May 11, 2015

Abstract

tl;dr This is the guide for equipment checkout.

1   Instructions

Screenshot of application

- **Import Excel**: Input a valid filepath to an Excel spreadsheet. The Excel spreadsheet format must be .xlsx. Press 'Upload' to upload the spreadsheet into main memory.

- **Checkout Date**: Date of checkout. Determines file name of PDF file.

- **Equipment Grid**: Grid of equipment filled in with data from Excel spreadsheet.

- **Fencer Info**: Two options. Typing in a fencer's name, selecting the dropdown, and pressing 'Add' will associate all equipment to the fencer. Clicking the dropdown to the right of the button allows selection of fencers with existing equipment.

- **Fencer Checkout List table**: displays all equipment checked out. Clicking the 'Removed' checkbox associated with the equipment and clicking 'Remove from List' will remove the fencer from the equipment.

- **Export into PDF**: Exports the info displayed in the Fencer Checkout List into a PDF file.
